

Secure Doc Executive

for fire protection of valuables

How do you protect your irreplaceable documents from fire? The Secure Doc Executive will protect your private things, valuables and documents from fire.

The Secure Doc Executive offers fire protection classification for paper, which means that documents stored in the safe will be protected against fire for 60 minutes. The Secure Doc Executive is ideal for the home and any business environment. The safes are suitable for the secure storage of all kinds of personal belongings, such as insurance documents, passports, bank papers, income tax reports, contracts, receipts, etc.

Models

The Secure Doc Executive is available in four models, all designed to protect your documents and belongings from fire. Model 30 and 36 are compact designs, but offer very efficient storage capacity. Models 52 and 76, the larger safes in the range, are suitable for storing binders vertically.

Locking

The safes are provided with a user-friendly electronic pin-code lock or key lock. The electronic lock offers the option of programming two user codes and has a sophisticated design. Modern technology provides a hold-up function when an incorrect code has been entered five times.

Certification

The Secure Doc Executive range is tested and certified to NT Fire 017 — 60 Paper and UL 72 Class 350.

Additional features

The safes are provided as standard with a hole in the base for floor anchoring. The safes are also delivered with a shelf and/or special tray to store small items. In addition, model 76 is equipped with a lockable drawer.

Design

The range will complement any user environment and is supplied in a modern two-tone finish of light and dark grey.
